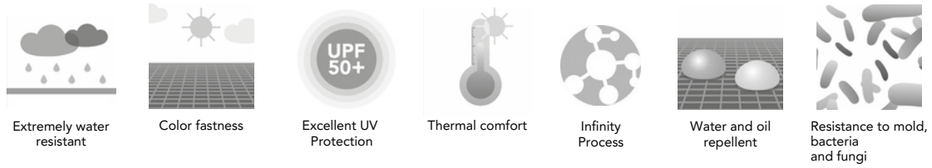
RSY-138 Cadet Grey

RSY-103 Black

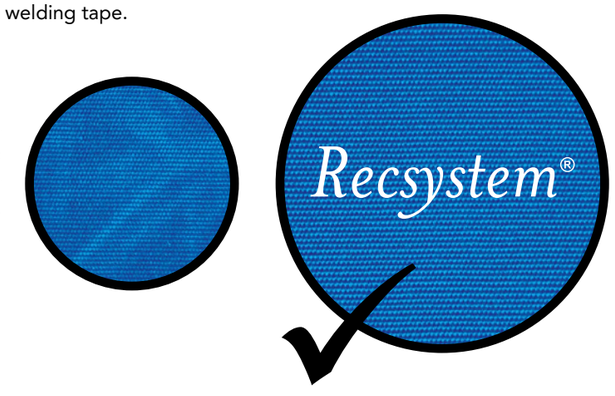
Properties



Extremely water resistant | Color fastness | Excellent UV Protection | Thermal comfort | Infinity Process | Water and oil repellent | Resistance to mold, bacteria and fungi

In response to increasing demand for an acrylic fabric that has superior performance under extreme weather conditions, we present **Recsystem®**, a highly durable resin back coated solution-dyed acrylic for the Marine and Awning Industry.

- Outstanding fade resistance only solution-dyed acrylic fabrics can provide.
- Withstands harshest weather conditions.
- Blocks up to 99% of harmful UV rays.
- Dirt and oil repellent, mildew resistant, and antibacterial.
- Superior water resistance due to double coating (fluorocarbon on both sides, acrylic resin underside).
- Will not unravel when scissor or knife cut.
- Fabric panels can be joined with welding tape.

New undercoating


Our new undercoating is nearly invisible from most angles, contains two different and highly effective antimicrobial agents, eliminates leaking and misting in driving rainstorms, and is highly resistant to crazing and marking.
